

## FIMA BULKING SERVICES BERHAD

FIMA Bulking Services Bhd is a wholly owned subsidiary of Kumpulan FIMA Bhd. The company was incorporated in 1979 to operate a common-user multi product liquid bulking terminal in NorthPort, Port Klang, Malaysia.

Situated directly opposite the deep water point and anchorage area, the terminal enjoys one of the most ideal port facilities in the region with the maximum departure draft of 11.5m.

Without tidal restrictions, it offers round-the-clock service and its three working bulk wharves are capable of accommodating vessels up to 60,000 tonnes displacement and LOA of 225m. The total current capacity of the FIMA Bulking terminal is 75,000 m<sup>3</sup> with tanks ranging in size from 800 m<sup>3</sup> to 3,100 m<sup>3</sup>. It provides specialized tankage of various sizes and requirements.
