

# Wilee Vegetable Oils Sdn. Bhd.

Our facility was set up in Senai Johor in the year 2011 with a fractionation capacity of 650 mts a day. We produce palm olein of two grades, CP8 & CP10 for packing in jerry cans , bulk flexibags and local deliveries to local packers.

We also participated in the COSS scheme .

Our added advantage: We also fractionate our palm stearin for animal feed industry. Our clients range from packers, endusers, feedmills, as almost 65% of our products are exported, so to speak. We are Food to Feed business, with a growing reliable clientele worldwide. As to palm oil experience - our management has extensively been involved in Palm business well over 25 years in various capacities.
